Choreography Assessment Program

The National Dance Society offers **CAP** as a service to dancers and dance educators who need independent, professional evaluation of their works.

Dance faculty seeking tenure/promotion may find these evaluation useful pieces in their dossier. Choreography may be submitted as research and the process of adjudication adds a level of objectivity.

Adjudicators

The adjudicators are experienced choreographers, selected from diverse geographic regions and backgrounds. They offer focused, in-depth, knowledgeable evaluations.

Feedback

CAP offers two levels of feedback to the choreographer. The first is a basic level that supplies the choreographer with a rubric including a numeric value and comments. The second more in-depth version includes a formal evaluation letter that can be submitted to tenure/promotion committees.

The National Dance Society (NDS) is a 501(c)3 organization that envisions a country where each individual is provided a wide range of quality dance education and performances throughout his/her lifespan. Our motto is "Dance For All" and we aim to promote these experiences through schools, studios, leisure and recreation programs, faith-based groups, and culturally based settings.
